EUR 5,000,000,000

Euro Medium Term Note Programme

This base prospectus (the "**Base Prospectus**") has been approved by The Netherlands Authority for the Financial Markets (*Stichting Autoriteit Financiële Markten*, the "**AFM**"), which is the competent authority in The Netherlands for the purposes of Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**") and relevant implementing measures in The Netherlands, as a base prospectus issued in compliance with the Prospectus Regulation and relevant implementing measures in The Netherlands for the purpose of giving information with regard to the issue of notes ("**Notes**") issued under the Euro Medium Term Note Programme (the "**Programme**") by Stedin Holding N.V. (the "**Issuer**") described in this Base Prospectus during the period of twelve months after the date hereof. The Notes will have a minimum maturity of one year and a maximum maturity of forty years. The aggregate nominal amount of all Notes from time to time outstanding will not exceed Euro 5,000,000,000 (or its equivalent in any other currency calculated as described in this Base Prospectus).

For the purposes of the Prospectus Regulation, this Base Prospectus is valid for a period of twelve months from the date of approval and its validity will expire on 22 October 2026. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Application has been made to Euronext Amsterdam N.V. for Notes to be issued under the Programme up to the expiry of 12 months from the Publication Date (as defined below) to be admitted to listing and trading on Euronext in Amsterdam ("**Euronext**"), the regulated market of Euronext Amsterdam N.V. Euronext is a regulated market for the purpose of Directive 2014/65/EU (as amended, "**EU MiFID II**"). The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

No Notes may be issued under the Programme with a denomination of less than Euro 100,000 (or its equivalent in any other currency).

Amounts payable on Notes with a floating rate of interest may be calculated by reference to EURIBOR as specified in the relevant Final Terms. As at the date of this Base Prospectus, the administrator of EURIBOR, The European Money Markets Institute, is included in ESMA's register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "**EU Benchmarks Regulation**") and the register of administrators and benchmarks established and maintained by the UK Financial Conduct Authority ("**FCA**") pursuant to Article 36 of Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK Benchmarks Regulation**"). The registration status of any administrator under the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Base Prospectus or any applicable Final Terms to reflect any change in the registration status of the administrator.

Tranches of Notes issued under the Programme will be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be issued by a credit rating agency established in the EEA or in the United Kingdom and registered under Regulation (EC) No. 1060/2009 (as amended, the "**EU CRA Regulation**") or Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK CRA Regulation**") respectively, will be disclosed in the Final Terms.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the ability of the Issuer to fulfil its obligations under the Notes are discussed under "Risk Factors" below.

RISK FACTORS

An investment in Notes involves certain risks including those described below. Prospective investors should carefully consider the matters and information set forth below regarding the factors that may affect the ability of the Issuer to fulfil its obligations under the Notes. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below. Most of these factors are contingencies which may or may not occur. If any of the following risks actually occurs, the trading price of the Notes could decline and an investor could lose all or part of its investment. Additional risks not currently known to the Issuer or risks that the Issuer presently deems immaterial may subsequently harm the Issuer and affect an investor's investment.

The Issuer believes that the factors described below represent the material risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks actually materialising, of the potential significance of the risks or of the scope of any potential negative impact to the Issuer's business, financial condition, results of operations and prospects. The Issuer may face a number of these risks described below simultaneously and some risks described below may be interdependent. While the risk factors below have been divided into categories and have been placed, in the opinion of the Issuer, in the most appropriate category, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

Risks relating to the Issuer

Risks related to the Issuer's financial situation

1. (Re)financing risk

The Issuer finances itself predominantly by use of capital markets. Furthermore, the Issuer is facing a substantial increase in financing needs in the future years mainly due to the energy transition in The Netherlands. Therefore, the Issuer is sensitive to general financial market conditions. The Issuer seeks external financing, either in the form of public or private financing or other arrangements, which may not be available on attractive terms or may not be available at all. As a consequence, the Issuer might not be able to invest as scheduled. Any limitations on the Issuer's ability to invest as scheduled, could affect the Issuer's cash flows, and affect its ability to execute its strategic plans, which could have a material adverse effect on the Issuer's business, financial condition and profitability. For regulatory reasons, fee increases to compensate for extra energy transition investments are not granted until the next regulatory period and may not be granted at all if the Issuer is unable to invest as scheduled. This could affect its ability to execute its strategic plans, which could have a material adverse effect on the Issuer's business, financial condition and profitability. Furthermore, adverse market circumstance could imply that financing is only available at unfavourable terms which could have a negative effect on the Issuer's business, financial condition and profitability. This is further exacerbated by the fact that most companies in the energy transmission sector have increased financing needs due to energy transition which increases general demand for funding in the sector.

2. Interest rate risk

The Issuer finances itself with a combination of newly issued short and long term debt. Market interest rates for such issuances are uncertain and can fluctuate which is further exaggerated by the Issuer's increasing financing needs. Furthermore, the Issuer is allowed under its current policy to partly finance itself with (long term) floating rate debt. As the reference interest rate on this debt can fluctuate, the Issuer is exposed to interest rate risk. Interest costs are compensated by the regulated weighted average costs of capital ("WACC"), as the WACC includes a cost of capital component, being the expected cost of capital

for a company with an "A" rating. As such, an interest compensation is part of the regulated permitted costs which are based on regulatory decisions made by the Dutch Authority of Consumers & Markets (*Autoriteit Consument & Markt*, the "ACM"), such as the Regulation Method Decision (*Methodebesluit*). Adverse fluctuations and increases in interest rates could result in higher interest than the Issuer gets compensated for through the regulated WACC, which could have a material adverse effect on the Issuer's financial condition and profitability. Short term rates are not part of the regulatory model and are therefore not included in the regulated WACC calculation for the Issuer's maximum permitted tariffs. Higher short term interest rates could directly have a material adverse effect on the Issuer's financial condition and profitability.

3. *Commodity price risk*

Due to the type of business in general, the Issuer is exposed to changes in market prices of commodities (e.g. energy) and the financial position and (operating) cash flow of the Issuer may be adversely affected by such changes. Commodity price risk relates mainly to the procurement of electricity and gas due to the fact that the grid operators have to replace electricity and gas that is lost during the distribution (technical loss, measurement failures and fraud). The annual average grid losses of the Issuer are estimated at approximately 910 GWh. The procurement of these grid losses is done on a three year rolling forward basis. The typical characteristics of commodity markets - in particular illiquidity, from time to time - may cause considerable changes in commodity prices and therefore may influence the cash flows and financial position of the Issuer.

4. *Credit Rating Risk*

The Issuer's current long-term Issuer credit rating of "A- with a stable outlook" has been issued by credit rating agency S&P Global Ratings Europe Limited ("S&P"). There is a risk of a negative adjustment of the credit rating of the Issuer resulting from changes implemented by S&P with respect to rating criteria, rating method or assumptions, or as a consequence of circumstances adversely affecting the Issuer's performance and/or solvability. A negative adjustment to the Issuer's credit rating could affect the Issuer's access to capital and money markets, financing costs and the terms and conditions imposed by parties in the business sector, which in turn may have an adverse impact on the Issuer's revenues, profits, cash flows and financial position.

The Issuer has a public rating by S&P since 2001. In S&P's report of 30 January 2025, the "A- with a stable outlook" long-term issuer credit ratings of each of the Issuer and Stedin Netbeheer B.V. ("**Stedin Netbeheer**") have been affirmed. The stable outlook reflects S&P's view that the Issuer will be able to maintain a ratio of funds from operations to debt of well above 9 per cent. over the medium term.

As per December 2023 the Dutch state became a 11.9 per cent. owner in the Issuer after injecting EUR 500 million common equity, which confirms S&P's view of moderately likely extraordinary support from the government. S&P already classified Stedin as so-called "Government Related Entity", which results in a 1 notch uplift on the Stand-Alone Credit Profile (SACP) which is also reflected in the current long-term issuer credit ratings.

The Issuer has a long-term credit rating target of an A- (minus) rating profile which provides a buffer in relation to the minimum statutory required creditworthiness of an 'investment grade rating (BBB/Baa2)' for the Issuer, as stated in the Financial Management of Grid Managers Decree (*Besluit Financieel Beheer Netbeheerders*).

5. *Counterparty risk*

Counterparty risk is the risk that a counterparty cannot or will not meet its delivery or payment obligations. The Issuer primarily encounters this risk in interest rate swaps which it has executed to hedge interest rate risk on current and future issuances. If such counterparty risk materialises, this may negatively influence the net profit, cash flows and the financial position of the Issuer.

6. *Risks related to invoice collection*

The energy suppliers in The Netherlands invoice and collect the grid costs from customers and each grid operator receives its grid costs from the supplier, based on an agreed verification process. The Issuer will be dependent on the revenue collection processes of energy suppliers and thus has exposure to credit risks

on both customers (indirectly) and energy suppliers (directly). As a result, customers or suppliers may pay invoices later or not at all which may have a material adverse impact on the Issuer's financial performance and position in the future. The additional costs made by distribution system operators in The Netherlands is, in part, reflected in higher tariffs charged to customers. This could impede with customers' willingness and capacity to pay these tariffs.

Risks related to the Issuer's business activities and industry

7. *Risk related to energy transition on electricity and gas infrastructure*

Climate policy in The Netherlands is aimed at transforming the current energy system, mainly based on fossil fuels, into a low-carbon energy system based on renewable energy sources and low-carbon energy technology. The Climate Agreement (2019) provides a roadmap for this transformation. The focus is on a substantial growth in the share of sustainable electricity, a substantial growth in the number of electric cars, a substantial reduction in greenhouse gas emissions in industry and a more sustainable building environment. This transition has a major impact on Stedin Holding and its subsidiaries' (hereinafter Stedin Group) gas and electricity distribution networks. This involves a number of risks.

Firstly, customer requests and required deeper network investments can increase too much, which makes it difficult for the Issuer to connect new customers on time and to have sufficient transport capacity available on time. This can result in additional costs, for example costs made for congestion management and, ultimately lead to social dissatisfaction and, as a result, to claims and/or stricter regulation of network operators.

Secondly, Stedin Group's profitability could be affected due to uncertainty over future use of its gas network. This could result in accelerated depreciation of parts of its gas grid. Alternatively, Stedin Group's current gas grid might play a significant role in the transmission of renewable gases. Stedin Group's forecasts do not yet make allowance for significant investment to make its grid ready for a specific renewable gas. Consequently, it is possible that investments in the gas grid are underestimated in Stedin Group's current forecasts.

8. *Risks related to availability of sites, employees with the required technical competencies and materials*

Due to the energy transition and economic growth, the Issuer faces increased capex programs for electricity grid expansions, connections and maintenance of existing grids. As a result, space, people and materials are not always immediately available to a sufficient extent. The realisation of new infrastructure and expansion of the current infrastructure requires space. However, the amount of land and space available is scarce and it is difficult to obtain planning permission in time. Planning permission procedures for spatial integration of such infrastructure require (much) more time than time required for building assets or installing infrastructure. There is the risk at Stedin Group that scarcity of space or time required to obtain the required planning permissions results in incapacity to make the required grid investments to meet customer demand. The increase in capex also implies there is a greater need for fitters, site managers, engineers and project leaders. At the same time there is a decrease in technically trained personnel entering the labour market generally and specifically at Stedin Group, an increase in technical staff nearing their retirement. As the future volume of work will increase, a large replacement and increase of employees still remains an issue. Due to the specific expertise required for most positions, new technical employees need to be trained over a period of up to two years. There is the risk that Stedin Group no longer has sufficient staff with the required technical competencies to facilitate the energy transition. The energy transition also resulted in a surge in demand for raw materials, such as cobalt, copper and aluminium, which has led to greater risks of supply problems and price increases. This implies required materials might not be available in time or only be procured at higher prices. All the elements mentioned above can impact the grid performance, customer satisfaction, financial flexibility and/or cash flows and ability to execute its strategic plans.

9. *Risk related to business continuity*

The continuity of the service provided by the Issuer could be threatened by situations such as large-scale interruptions in IT systems which could be caused by a cyberattack. This is exacerbated as a result of Stedin Group's strategic location and its social and economic importance. Furthermore, the unavailability of key people in the organisation or the access to relevant sites to manage the networks and provide services pose a risk to the continuity of service provided Stedin Group. Such situations may affect the customers in the

form of an interruption in the supply of energy, untimely invoices or a lower level of service and may affect Stedin Group with additional cost and delays in the incoming cash flows.

10. IT landscape insufficiently prepared for the future

As a result of growing digitalisation of its operations, Stedin Group is increasingly dependent on the robustness, operability and security of its information technology systems. This dependence results in a growing complexity of data governance and handling. The availability, integrity and confidentiality of such information systems and data is fundamental for day-to-day business operations. Due to their complexity and scale there is a risk that large information technology projects will not be ready in time, are not executed within the approved budget or will not deliver the expected financial benefits and operational performance. This might lead to suboptimal grid management, inefficient investments according to the benchmark which comprises of the other grid operators in The Netherlands and set by the Dutch regulator to enforce efficiency. This might have an adverse impact on regulatory compensation and the financial position of the Issuer.

11. Risk related to accidents and infrastructure defects

The Issuer's highest priority with respect to the electricity grids is preventing interruptions in supply through measures such as station automation for grid control, replacement of fault-sensitive components and preventing damage resulting from excavation. In addition, the Issuer endeavours to replace components that will no longer be available in the near future and it is taking steps to enhance the reliability of its electricity networks.

With respect to the gas networks, maintenance has the highest priority of the Issuer in order to prevent gas leaks and maintain the supply of gas. This maintenance focuses primarily on the replacement of connections that are in substandard condition and the replacement of distribution pipelines that are reaching the end of their expected useful lifespan. The replacement of pipelines prevents gas leaks and more costly repairs. To prevent inconvenience and to reduce total costs, activities are carried out simultaneously with work on other infrastructure (roads, railways, sewers), where possible. The complexity of the network and the large number of factors that can harm the infrastructure add to this risk. Interruption may result in additional costs (e.g. repair, reconstruction, and claimed damage) and therefore may negatively influence the net profit, cash flows and the financial position of the Issuer.

Furthermore, the Issuer's primary activities, the management of regional electricity and gas grids, have an inherent risk to the health and safety of employees, customers or bystanders as a result of accidents or asset failures. Incorrect application of safety instructions and/or insufficient safety awareness can result in accidents. Failure of assets and materials in the Issuer's grids can also result in health and safety risks. Any of such accidents and/or failures can have negative reputational effects and may result in claims and therefore may negatively influence the net profit, cash flows and the financial position of the Issuer.

Legal and regulatory risk

12. Impact of the Dutch regulatory framework and related risks

The Issuer is the holding company which owns directly 100 per cent. of the shares in Stedin Netbeheer which is a regulated Dutch grid company (the "**Grid Company**"). The Grid Company accounts for well over 95 per cent. of the consolidated revenue, annual profit and total assets of the Issuer as at 31 December 2024.

The regulated activities of Stedin Group depend on governmental licenses, authorisations, exemptions and/or dispensations in order to operate its business. These governmental licenses, authorisations, exemptions and/or dispensations may be subject to withdrawal, amendment and/or additional conditions being imposed on the regulated activities of Stedin Group which could affect the revenues, profits and financial position of the Issuer.

As a consequence of the strong dependence on governmental regulations and European legislation, the Issuer's revenues, profits, cash flows and financial position may be affected by changes to the regulatory environment.

The ACM supervises the correct implementation of the Electricity Act 1998 (*Elektriciteitswet 1998*) and the Gas Act (*Gaswet*). The ACM ensures the effective and efficient functioning of the energy market and

the protection of customer interests through the implementation of various regulatory instruments. This includes safeguarding access to networks, maintaining sufficient transparency (access to essential information) and protecting consumers against potential malpractices.

As of December 2024, the Ministry of Economic Affairs has finalised a new energy act, which consolidates the existing Electricity Act 1998 and Gas Act, adjusts the Dutch legislation to relevant European legislation and inserts flexibility to comply with requirements for the Dutch renewable energy transition. The new legislation has been approved by parliament and will come into force per 1 January 2026.

The ACM monitors the capability of the Grid Company to meet the financial requirements for managing the electricity and gas grid, including required and planned investments. The Grid Company submits its statutory and regulatory financial statements to the ACM annually, including results, assets and infrastructure related activities (maintenance and investments). Furthermore end-user tariffs for the distribution of electricity and gas (which generates the revenues for the Grid Company) are controlled by the ACM and currently depend on a series of consecutive regulatory decisions such as the Method Decisions (as further described and defined in the section "*Description of the Issuer*"). As a result, the Issuer has limited control over the revenues from its regulated activities. Changes in legal and regulatory requirements and/or regulatory decisions from the ACM may have an impact on the Issuer's financial position and cash flows.

Risk relating to the Notes

Risks related to the nature of a particular Series of the Notes

1. *The Notes may be redeemed prior to maturity*

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of The Netherlands or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Conditions.

In addition, the Conditions provide that the Notes are redeemable at the Issuer's option in certain other circumstances and accordingly the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate at the same level as that of the Notes. Potential investors should consider reinvestment risk in light of other investments available at that time.

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

2. *Notes issued, if any, as "Green Bonds" may not be a suitable investment for all investors seeking exposure to green assets and any failure to meet the portfolio mandates of environmentally focused investors with respect to such Green Bonds may affect the value of and/or trading price of the Green Bonds*

No assurance is given by the Issuer that any assets or uses the subject of, or related to, any Eligible Green Assets will meet any or all investor expectations or requirements regarding "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Green Assets

The Final Terms relating to any specific Tranche of Notes may provide that it will be the relevant Issuer's intention to apply the proceeds from an offer of those Notes specifically for Eligible Green Assets in accordance with the Stedin Group Green Finance Framework (each as defined in the section entitled "*Use of Proceeds*" below). Prospective investors should determine for themselves the relevance of such information for the purpose of any investment in such "Green Bonds" together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer, the Arranger or the Dealers that the use of such proceeds for any Eligible Green Assets, and in the event that any Notes are listed or admitted to trading on any dedicated green, environmental, social, sustainability or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated) that such listing or

admission, will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental impact of any assets or uses, the subject of or related to, any Eligible Green Assets. Also, no assurance is given by the Issuer, the Arranger or the Dealers that any such listing will be obtained in respect of any Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a “green” or “sustainable” or an equivalently-labelled asset or as to what precise attributes are required for a particular project to be defined as “green” or “sustainable” or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any assets or uses the subject of, or related to, any Eligible Green Assets will meet any or all investor expectations or requirements regarding such “green”, “sustainable” or other equivalently-labelled performance objectives (including Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment, the so called “**EU Taxonomy**”) or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Green Assets. The Issuer may amend the Stedin Group Green Finance Framework at its own discretion, and without taking into account specific interest of Noteholders, also after the issuance of Green Bonds, *inter alia*, to align the framework with incoming green bond regulation and guidelines, without consent, approval or prior notification to Noteholders.

A Second-party Opinion may not reflect the potential impact of all risks related to the structure, market and other factors that may affect the value of the Notes or the assets financed or refinanced toward an amount corresponding to the net proceeds of the relevant issue of Notes in the form of “Green Bonds”

In connection with the issue of Green Bonds under the Programme, one or more sustainability rating agencies or sustainability consulting firms may be requested to issue a second-party opinion confirming that the Eligible Green Assets have been defined in accordance with the broad categorisation of eligibility for green assets set out by the International Capital Market Association (ICMA) Green Bond Principles and the Loan Market Association (LMA) Green Loan Principles and/or a second-party opinion regarding the suitability of the Notes as an investment in connection with certain environmental and sustainability assets (any such second-party opinion, a “**Second-party Opinion**”). A Second-party Opinion is not, nor shall it be deemed to be, incorporated in and/or form part of this Base Prospectus. A Second-party Opinion may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of the Notes or the assets financed or refinanced toward an amount corresponding to the net proceeds of the relevant issue of Notes in the form of “Green Bonds”. A Second-party Opinion would not constitute a recommendation by the Issuer, the Arranger, the Dealers or any other person to buy, sell or hold any such Notes. Any such Second-party Opinion is only current as of the date that opinion was initially issued. In addition, although the Issuer may agree at the time of issue of any Green Bonds to certain reporting and use of proceeds it would not be an event of default under the Notes if the Issuer were to fail to comply with such commitments. Notes issued, if any, as “Green Bonds” may not be a suitable investment for all investors seeking exposure to green assets. Prospective investors must determine for themselves the relevance of any such Second-party Opinion and/or the information contained therein and/or the provider of such Second-party Opinion for the purpose of any investment in such Notes. Currently, the providers of a Second-party Opinion are not subject to any specific regulatory or other regime or oversight. The matters described in this paragraph equally apply to any other “Green Bond” verifications, certifications, scorings or ratings from time to time issued by any person in relation to any Notes issued as “Green Bonds”.

The Issuer may not use the proceeds of the Notes for the financing and/or refinancing of the Eligible Green Assets due to circumstances outside of its control

While it is the intention of the Issuer to apply the proceeds of any Notes so specified for Eligible Green Assets in, or substantially in, the manner described in this Base Prospectus, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Eligible Green Assets will be capable of being implemented in or substantially in such manner and that accordingly such proceeds will be totally or partially disbursed for such Eligible Green Assets. Neither the Arranger nor any Dealer shall be responsible for monitoring the use of proceeds of any Notes.

Nor can there be any assurance that such assets related to Eligible Green Assets will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Neither any such event or failure by the Issuer nor the withdrawal of the Second-party Opinion will constitute an event of default under the Notes.

Any such event or failure to apply the proceeds of any issue of Notes for any Eligible Green Assets as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Eligible Green Assets and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

3. *Because the Fixed Rate Notes accrue interest at a fixed rate, the amount of interest payable on the Fixed Rate Notes on each fixed rate interest payment date may be below market interest rates.*

Because interest payable on the Fixed Rate Notes accrues at a fixed rate, there can be no guarantee that the interest holders will receive on one or more of the fixed rate interest payment dates will be equal to or greater than the market interest rates on such dates. The Issuer does not have any control over a number of factors that may affect market interest rates, including economic, financial, and political events, such as the tightening of monetary policy, that are important in determining the existence, magnitude, and longevity of these risks and their results.

As a result, the interest payable on the Fixed Rate Notes may be less than the market interest rate, which may adversely affect the value of the Fixed Rate Notes.

4. *Noteholders will not be able to calculate in advance their rate of return on Floating Rate Notes*

A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to issue Fixed Rate Notes may affect the market value and secondary market (if any) of the Floating Rate Notes (and *vice versa*).

5. *Zero coupon Notes are subject to higher price fluctuations than non-discounted Notes*

Changes in market interest rates generally have a substantially stronger impact on the prices of zero coupon Notes than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, zero coupon Notes can suffer higher price losses than other notes having the same maturity and credit rating.

6. *If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned*

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

7. *Notes issued at a substantial discount or premium*

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

8. *Regulation of benchmarks may lead to future reforms or discontinuation*

The Euro Interbank Offered Rate ("**EURIBOR**") and other interest rates or other types of rates and indices which are deemed to be benchmarks have been subject to significant regulatory scrutiny and legislative intervention in recent years. This relates not only to creation and administration of benchmarks, but, also, to the use of a benchmark rate. In the European Union ("**EU**"), for example, Regulation (EU) No. 2016/1011, as amended (the "**EU Benchmarks Regulation**") applies to the provision of, the contribution of input data to and the use of an in-scope benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of in-scope benchmarks of administrators that are not authorised or registered (or, if not EU-based, not deemed equivalent or recognised or endorsed). The UK Benchmarks Regulation among other things, applies to the provision of and the use of a benchmark within the United Kingdom ("**UK**"), subject to certain transitional provisions. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

Legislation such as the EU Benchmarks Regulation could have a material impact on any Notes linked to EURIBOR or another in-scope benchmark rate or index for example, if the methodology or other terms of the benchmark are changed in the future in order to comply with the terms of the EU Benchmarks Regulation or other similar legislation, or if a critical benchmark is discontinued or is determined to be by a regulator to be "no longer representative". Such factors could (amongst other things) have the effect of reducing or increasing the rate or level or may affect the volatility of the published rate or level of the benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

Such factors may have (without limitation) the following effects on certain benchmarks (including EURIBOR): (i) discouraging market participants from continuing to administer or contribute to such benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing or otherwise dependent (in whole or in part) upon a benchmark.

The elimination of other benchmarks, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest calculation provisions of the Conditions (as further described in Condition 7(j) (*Benchmark Discontinuation*)), or result in adverse consequences to holders of any Notes linked to such benchmark (including Floating Rate Notes whose interest rates are linked to EURIBOR or any other such benchmark that is subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities (including the Notes) based on the same benchmark.

9. *Interest rate "fallback" arrangements may lead to Notes performing differently or the effective application of a "fixed rate"*

The Conditions provide for certain fallback arrangements in the event that a published benchmark, becomes unavailable, including the possibility that the rate of interest could be set by reference to a successor rate or an alternative rate and that such successor rate or alternative reference rate may be adjusted (if required) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic

prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark, although the application of such adjustments to the Notes may not achieve this objective. Any such changes may result in the Notes performing differently (which may include payment of a lower interest rate) than if the original benchmark continued to apply. In certain circumstances the ultimate fallback of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used.

This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Advisor (as defined in the Conditions) (including the possibility that a license or registration may be required for such agent or any administrator under the applicable legislation), the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Notes.

The application of the fallback provisions contained in Condition 7(j) (*Benchmark Discontinuation*) may lead to a conflict of interests of the Issuer, the Independent Advisor and Noteholders including with respect to certain determinations and judgments that the Independent Advisor may make pursuant to Condition 7(j) (*Benchmark Discontinuation*) that may influence the amount receivable under the Notes.

Investors should consult their own independent advisors and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or UK Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

10. Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the Terms and Conditions of the Notes). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

11. Modification and waivers

The Conditions contain provisions for calling meetings of Noteholders in physical or virtual form to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Notes and these Conditions may be amended without the consent of the Noteholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, without the consent of the Noteholders, if it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders. Any such modification may be contrary to the interest of one or more Noteholders.

Any modification of the Conditions may be contrary to the interest of one or more Noteholders and as a result the Notes may no longer meet the requirements or investment objectives of a Noteholder.

Risks related to the holding of the Notes

12. *Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer*

The Notes which are in NGN form (as specified in the relevant Final Terms), will be held by a common safekeeper for Euroclear and/or Clearstream, Luxembourg and the Notes which are not in NGN form (as specified in the relevant Final Terms) will initially be held by a common depositary for Euroclear and/or Clearstream, Luxembourg, or in either case by or on behalf of any other agreed clearing system, and in each case in the form of a Global Note which will be exchangeable for Definitive Notes only in the limited circumstances as more fully described in the relevant Global Note and in "*Summary of provisions relating to the Notes whilst in global form*" below. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by the Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

The Issuer will discharge its payment obligations under the Notes by making payments to the common safekeeper or common depositary for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes. Accordingly, investors will be exposed to the credit risk of, and default risk in respect of, the relevant common safekeeper, common depositary and clearing systems.

13. *Notes in NGN form*

Notes may be issued in NGN form, and with the intention that they be deposited as eligible collateral in respect of monetary policy of the central banking system for the Euro (the "**Eurosystem**") and intra-day credit operations by the Eurosystem with one of the international central securities depositories and/or central securities depositories that fulfil the minimum standard as common safekeeper required for such institutions by the European Central Bank. This form of Notes and intention do not, however, necessarily mean that each Note in NGN form will be recognised as such eligible collateral, either upon issuance or at any or all times during their existence. Such recognition will depend upon satisfaction of all Eurosystem eligibility criteria at the relevant time and there can be no assurance that such Notes will be so recognised. Notes which do not qualify as eligible collateral for Eurosystem purposes may be of less value to investors than those which do.

14. *Definitive Notes where denominations involve integral multiples may be subject to minimum denomination considerations*

The Notes have a minimum denomination of EUR 100,000. The Conditions provide that, for so long as the Notes are represented by a Global Note and Euroclear and Clearstream, Luxembourg (or other relevant clearing system) so permit, the Notes will be tradable in nominal amounts (a) equal to, or integral multiples of, the minimum denomination, and (b) the minimum denomination plus integral multiples of an amount lower than the minimum denomination.

Definitive Notes will only be issued if (a) Euroclear or Clearstream, Luxembourg (or other relevant clearing system) is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 12 (*Events of Default*) occurs. If Definitive Notes are issued, such Notes will be issued in respect of all holdings of Notes equal to or greater than the minimum denomination. Definitive Notes will in no circumstances be issued to any person holding Notes in an amount lower than the minimum denomination. Any remaining principal amount of such Notes will be cancelled and holders will have no rights against the Issuer (including rights to receive principal or interest or to vote) in respect of such Notes. If Definitive Notes are issued, holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade and investors may therefore be unable to sell such Definitive Notes.

Risks related to the admission of the Notes to trading on a regulated market

15. *There is no active trading market for the Notes*

The Notes are new securities which may not be widely distributed and for which there is currently no active trading market. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although application has been made for the Notes to be admitted to listing on Euronext, there is no assurance that such application will be accepted or that an active trading market will develop. In addition, the ability of the Dealers to make a market in the Notes (if applicable) may be impacted by changes in regulatory requirements applicable to the marketing, holding and trading of, and issuing quotations with respect to the Notes. Accordingly, there is no assurance as to the development or liquidity of any trading market for the Notes.

Risks related to the market generally

16. *Credit ratings may not reflect all risks or may be revised or withdrawn*

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant third country non-EEA rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("ESMA") on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances.

If the status of the rating agency rating the Notes changes for the purpose of the EU CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment, which may impact the value of the Notes and their liquidity in the secondary market.

Restriction on distribution

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see "*Subscription and Sale*". In particular, Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States, and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")).

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**EU MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA which were relied on immediately before exit day to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

EU MiFID II product governance / target market

The Final Terms in respect of any Notes will include a legend entitled "EU MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**EU distributor**") should take into consideration the target market assessment; however, a distributor subject to EU MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**EU MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the EU MiFID Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled "**UK MiFIR Product Governance**" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**UK distributor**") should take into consideration the target market assessment; however, a UK distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Programme limit

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed EUR 5,000,000,000 and for this purpose, any Notes denominated in another currency shall be translated into euro at the date of the agreement to issue such Notes (calculated in accordance with the provisions of the Dealer Agreement). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement as defined under "*Subscription and Sale*".

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the relevant Final Terms may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and

- (v) be able to evaluate (either alone or with the help of a financial advisor) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The purchase of certain Notes may be suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Notes. Prospective investors should make such inquiries as they deem necessary without relying on the Issuer or any Dealer and before making an investment decision with respect to any Notes, prospective investors should consult their own stockbroker, bank manager, lawyer, accountant or other financial, legal and tax advisors and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisors to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

The return on an investment in Notes will be affected by charges incurred by investors

An investor's total return on an investment in any Notes will be affected by the level of fees charged by the nominee service provider and/or relevant clearing systems used by the investor. Such a person or institution may charge fees for the opening and operation of an investment account, transfers of Notes, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Notes.

Potential Conflicts of Interest

The Issuer and its affiliates may engage in trading activities (including hedging activities) related to any Notes and any other instruments or derivative products for their proprietary accounts or for other accounts under their management. The Issuer and its affiliates may also issue other derivative instruments in respect of or related to any Notes. The Issuer and its affiliates may carry out activities that minimise its and/or their risks related to the Notes, including effecting transactions for their own account or for the account of their customers.

Settlement Risk

Settlement of the Notes is subject to all applicable laws, regulations and practices in force at the relevant time and neither the Issuer nor any Paying Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. Neither the Issuer nor any Paying Agent shall under any circumstances be liable for any acts or defaults of any clearing system in relation to the performance of its duties in relation to the Notes.

FINAL TERMS

In this section the expression "necessary information" means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme the Issuer has included in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will be contained in the relevant Final Terms.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, supplement this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions described in the relevant Final Terms as supplemented to the extent described in the relevant Final Terms.

Tranches of Notes issued under the Programme will be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be issued by a credit rating agency established in the EEA or in the United Kingdom and registered under Regulation (EC) No. 1060/2009 (as amended, the "**EU CRA Regulation**") or Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK CRA Regulation**") respectively, will be disclosed in the Final Terms.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the relevant Final Terms may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

FORMS OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary global note (the "**Temporary Global Note**"), without interest coupons, or a permanent global note (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV as operator of the Euroclear System ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream, Luxembourg**") and/or any other relevant clearing system (each a "**Relevant Clearing System**") and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the Euro (the "**Eurosystem**"), **provided that** certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than one year, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Notes

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the delivery of a Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) presentation and surrender of the Temporary Global Note to or to the order of the Principal Paying Agent; and
- (ii) receipt by the Principal Paying Agent of a certificate or certificates of non-U.S. beneficial ownership.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership **provided, however, that** in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

If:

- (a) the Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (Amsterdam time) on the seventh day after the bearer of the Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or

- (b) the Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then at 5.00 p.m. (Amsterdam time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Amsterdam time) on such due date (in the case of (b) above) (the "**Relevant Time**") each Relevant Account Holder shall directly acquire, without the need for any further action on behalf of any person, against the Issuer all those rights ("**Direct Rights**") which such Relevant Account Holder would have had if, immediately before the Relevant Time, it held and owned duly executed and authenticated Definitive Notes and (if applicable) Coupons, Coupon sheets and/or Talons in respect of each Note represented by such Temporary Global Note which such Relevant Account Holder has credited to its securities account with the Relevant Clearing System at the Relevant Time including, without limitation, the right to receive all payments due at any time in respect of such Definitive Notes other than any corresponding payments already made under such Temporary Global Note, and the bearer of such Temporary Global Note will have no further rights thereunder.

The Permanent Global Note will become exchangeable, in whole but not in part only and at the request of the bearer of the Permanent Global Note, for Bearer Notes in definitive form (each a "**Definitive Note**"):

- (a) on the expiry of such period of notice as may be specified in the Final Terms; or
- (b) at any time, if so specified in the Final Terms; or
- (c) if the Final Terms specifies "*in the limited circumstances described in the Permanent Global Note*", then if either of the following events occurs:
 - (i) Euroclear or Clearstream, Luxembourg, or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or
 - (ii) any of the circumstances described in Condition 12 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Principal Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 5.00 p.m. (Amsterdam time) on the thirtieth day after the bearer has requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) the Permanent Global Note was originally issued in exchange for part only of a Temporary Global Note representing the Notes and Relevant Accountholders obtained Direct Rights as defined in such Temporary Global Note in accordance with its terms; or
- (c) the Permanent Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Permanent Global Note on the due date for payment,

then at 5.00 p.m. (Amsterdam time) on such thirtieth day (in the case (a) above) or at 5.00 p.m. (Amsterdam time) on the date such Temporary Global Note becomes void (in the case of (b) above) or at 5.00 p.m. (Amsterdam time) on such due date (in the case of (c) above) (the "**Relevant Time**") each Relevant Account Holder shall directly acquire, without the need for any further action on behalf of any person, against the Issuer all those rights ("**Direct Rights**") which such Relevant Account Holder would have had if,

immediately before the Relevant Time, it held and owned duly executed and authenticated Definitive Notes and (if applicable) Coupons, Coupon sheets and/or Talons in respect of each Note represented by such Permanent Global Note which such Relevant Account Holder has credited to its securities account with the Relevant Clearing System at the Relevant Time including, without limitation, the right to receive all payments due at any time in respect of such Definitive Notes other than any corresponding payments already made under such Permanent Global Note, and the bearer of such Permanent Global Note will have no further rights thereunder.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "*Temporary Global Note exchangeable for Definitive Notes*" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "*Temporary Global Note exchangeable for Definitive Notes*" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Principal Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 5.00 p.m. (Amsterdam time) on the thirtieth day after the bearer has requested exchange of the Temporary Global Note for Definitive Notes; or
- (b) the Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Temporary Global Note on the due date for payment,

then at 5.00 p.m. (Amsterdam time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (Amsterdam time) on such due date (in the case of (b) above) (the "**Relevant Time**") each Relevant Account Holder shall directly acquire, without the need for any further action on behalf of any person, against the Issuer all those rights ("**Direct Rights**") which such Relevant Account Holder would have had if, immediately before the Relevant Time, it held and owned duly executed and authenticated Definitive Notes and (if applicable) Coupons, Coupon sheets and/or Talons in respect of each Note represented by such Temporary Global Note which such Relevant Account Holder has credited to its securities account with the Relevant Clearing System at the Relevant Time including, without limitation, the right to receive all payments due at any time in respect of such Definitive Notes other than any corresponding payments already made under such Temporary Global Note, and the bearer of such Temporary Global Note will have no further rights thereunder.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "*Permanent Global Note exchangeable for Definitive Notes*", then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (a) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (b) at any time, if so specified in the relevant Final Terms; or

- (c) if the relevant Final Terms specifies "*in the limited circumstances described in the Permanent Global Note*", then if either of the following events occurs:
- (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or
 - (ii) any of the circumstances described in Condition 12 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Principal Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 5.00 p.m. (Amsterdam time) on the thirtieth day after the bearer has requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) the Permanent Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Permanent Global Note on the due date for payment,

then at 5.00 p.m. (Amsterdam time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (Amsterdam time) on such due date (in the case of (b) above) (the "**Relevant Time**") each Relevant Account Holder shall directly acquire, without the need for any further action on behalf of any person, against the Issuer all those rights ("**Direct Rights**") which such Relevant Account Holder would have had if, immediately before the Relevant Time, it held and owned duly executed and authenticated Definitive Notes and (if applicable) Coupons, Coupon sheets and/or Talons in respect of each Note represented by such Permanent Global Note which such Relevant Account Holder has credited to its securities account with the Relevant Clearing System at the Relevant Time including, without limitation, the right to receive all payments due at any time in respect of such Definitive Notes other than any corresponding payments already made under such Permanent Global Note, and the bearer of such Permanent Global Note will have no further rights thereunder.

For the purposes of this section "*Form of the Notes*", "**Relevant Account Holder**" means any account holder with a Relevant Clearing Systems which at the Relevant Time has credited to its securities account with such Relevant Clearing System Notes represented by a Global Note or any relevant part of it.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "*Terms and Conditions of the Notes*" below and the provisions of the relevant Final Terms which supplement, amend and/or replace those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than one year, the Permanent Global Note, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions which, as supplemented, amended, replaced and/or completed by the relevant Final Terms, will be endorsed on each Note in definitive form issued under the Programme. The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.

1. Introduction

- (a) **Programme:** Stedin Holding N.V. (the "**Issuer**") has established a Euro Medium Term Note Programme (the "**Programme**") for the issuance of up to EUR 5,000,000,000 in aggregate principal amount of notes (the "**Notes**").
- (b) **Final Terms:** Notes issued under the Programme are issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**") of Notes. Each Tranche is the subject of final terms (the "**Final Terms**") which supplements these terms and conditions (the "**Conditions**"). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as supplemented by the relevant Final Terms. In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail.
- (c) **Agency Agreement:** The Notes are the subject of an agency agreement dated 22 October 2025 (the "**Agency Agreement**") between the Issuer, ABN AMRO Bank N.V. as principal paying agent (the "**Principal Paying Agent**", which expression includes any successor principal paying agent appointed from time to time in connection with the Notes) and the paying agents named therein (together with the Principal Paying Agent, the "**Paying Agents**", which expression includes any successor or additional paying agents appointed from time to time in connection with the Notes).
- (d) **The Notes:** All subsequent references in these Conditions to "Notes" are to the Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms are available for viewing at the Issuer's head office, Blaak 8, 3011 TA Rotterdam, The Netherlands and will be published in electronic form on <https://www.stedingroep.nl/investor-relations>.
- (e) **Summaries:** Certain provisions of these Conditions are summaries of the Agency Agreement and are subject to their detailed provisions. The holders of the Notes (the "**Noteholders**") and the holders of the related interest coupons, if any, (the "**Couponholders**" and the "**Coupons**", respectively) are bound by, and are deemed to have notice of, all the provisions of the Agency Agreement applicable to them. Copies of the Agency Agreement are available for inspection by Noteholders during normal business hours at the Specified Offices of each of the Paying Agents, the initial Specified Offices of which are set out below.

2. Interpretation

- (a) **Definitions:** In these Conditions the following expressions have the following meanings:

 - (A) one rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and

- (B) the other rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next longer than the length of the relevant Interest Period;

provided, however, that if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;

- (iii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; **provided, however,** subject to Condition 7(j) (*Benchmark Discontinuation*), that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- (d) **ISDA Determination:** If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions (provided that in any circumstances where under the ISDA Definitions the Calculation Agent would be required to exercise any discretion, including the selection of any reference banks and seeking quotations from reference banks, when calculating the relevant ISDA Rate, the relevant determination(s) which require the Calculation Agent to exercise its discretion shall instead be made by the Issuer or its designee) and under which:

- (i) if the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:

- (A) the Floating Rate Option is as specified in the relevant Final Terms;
- (B) the Designated Maturity is a period specified in the relevant Final Terms;
- (C) the relevant Reset Date is as specified in the relevant Final Terms; and
- (D) if Linear Interpolation is specified as applicable in respect of an Interest Period in the relevant Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (1) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (2) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period

provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall calculate the Rate of Interest at

such time and by reference to such sources as the Issuer, in consultation with an Independent Advisor appointed by the Issuer (and such Independent Advisor to act in good faith and in a commercially reasonable manner), determines appropriate;

- (E) if the specified Floating Rate Option is an Overnight Floating Rate Option, Compounding is specified to be applicable in the relevant Final Terms and:
 - (1) if Compounding with Lookback is specified as the Compounding Method in the relevant Final Terms then (a) Compounding with Lookback is the Overnight Rate Compounding Method and (b) Lookback is the number of Applicable Business Days specified in the relevant Final Terms;
 - (2) if Compounding with Observation Period Shift is specified as the Compounding Method in the relevant Final Terms then (a) Compounding with Observation Period Shift is the Overnight Rate Compounding Method, (b) Observation Period Shift is the number of Observation Period Shift Business Days specified in the relevant Final Terms and (c) Observation Period Shift Additional Business Days, if applicable, are the days specified in the relevant Final Terms; or
 - (3) if Compounding with Lockout is specified as the Compounding Method in the relevant Final Terms then (a) Compounding with Lockout is the Overnight Rate Compounding Method, (b) Lockout is the number of Lockout Period Business Days specified in the relevant Final Terms and (c) Lockout Period Business Days, if applicable, are the days specified in the relevant Final Terms;
- (F) if the specified Floating Rate Option is an Overnight Floating Rate Option, Averaging is specified to be applicable in the relevant Final Terms and:
 - (1) if Averaging with Lookback is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Lookback is the Overnight Rate Averaging Method and (b) Lookback is the number of Applicable Business Days specified in the relevant Final Terms;
 - (2) if Averaging with Observation Period Shift is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Observation Period Shift is the Overnight Rate Averaging Method, (b) Observation Period Shift is the number of Observation Period Shift Business Days specified in the relevant Final Terms and (c) Observation Period Shift Additional Business Days, if applicable, are the days specified in the relevant Final Terms; or
 - (3) if Averaging with Lockout is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Lockout is the Overnight Rate Averaging Method, (b) Lockout is the number of Lockout Period Business Days specified in the relevant Final Terms and (c) Lockout Period Business Days, if applicable, are the days specified in the relevant Final Terms;

(ii) References in the ISDA Definitions to:

"Confirmation" shall be references to the relevant Final Terms;

"**Calculation Period**" shall be references to the relevant Interest Period;

"**Termination Date**" shall be references to the Maturity Date;

"**Effective Date**" shall be references to the Interest Commencement Date;

(iii) if the Final Terms specify "2021 ISDA Definitions" as being applicable:

(1) "**Administrator/Benchmark Event**" shall be disapplied; and

(2) if the Temporary Non-Publication Fallback in respect of any specified Floating Rate Option is specified to be "Temporary Non-Publication Fallback – Alternative Rate" in the Floating Rate Matrix of the 2021 ISDA Definitions the reference to "Calculation Agent Alternative Rate Determination" in the definition of "Temporary Non-Publication Fallback – Alternative Rate" shall be replaced by "Temporary Non-Publication Fallback – Previous Day's Rate";

(iv) Unless otherwise defined capitalised terms used in this Condition 7(d) shall have the meaning ascribed to them in the ISDA Definitions.

(e) **Maximum or Minimum Rate of Interest:** If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified (which may not be less than zero) or if no such rate is stated the Minimum Rate of Interest shall be deemed zero.

(f) **Calculation of Interest Amount:** The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(g) **Calculation of other amounts:** If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.

(h) **Publication:** The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination (if required by the rules of the relevant competent authority, stock exchange and/or quotation system (if any)) but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.

- (i) **Notifications etc:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.
- (j) **Benchmark Discontinuation:** If a Benchmark Event occurs in relation to the Reference Rate when the Rate of Interest (or any component part thereof) for any Interest Period remains to be determined by reference to such Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Advisor, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 7(j)) and, in either case, an Adjustment Spread, if any (in accordance with Condition 7(j)(cc)) and any Benchmark Amendments (in accordance with Condition 7(j)(dd)).

In the absence of bad faith or fraud, the Independent Advisor shall have no liability whatsoever to the Issuer, the Paying Agents or the Noteholders for any determination made by it pursuant to this Condition 7(j).

- (aa) If (i) the Issuer is unable to appoint an Independent Advisor or (ii) the Independent Advisor appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7(j) prior to the relevant Interest Determination Date, the Reference Rate applicable to the immediate following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If there has not been a first Interest Payment Date, the Reference Rate shall be the Reference Rate applicable to the first Interest Period. For the avoidance of doubt, any adjustment pursuant to this final paragraph of Condition 7(j) shall apply to the immediately following Interest Period only. Any subsequent Interest Period may be subject to the subsequent operation of this Condition 7(j).
- (bb) If the Independent Advisor determines in its discretion that:
 - (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7(j)(cc)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(j); or
 - (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7(j)(cc)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(j).
- (cc) If the Independent Advisor determines in its discretion (A) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).
- (dd) If any relevant Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 7(j) and the Independent Advisor determines in its discretion (i) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, following consultation with the Calculation Agent (or the person specified in the relevant

Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s)), subject to giving notice thereof in accordance with Condition 7(j)(ee), without any requirement for the consent or approval of relevant Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice (and for the avoidance of doubt, the Principal Paying Agent shall, at the direction and expense of the Issuer, consent to and effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 7(j)).

- (ee) Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 7(j) will be notified promptly by the Issuer to the Principal Paying Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 18 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.
- (ff) No later than notifying the Principal Paying Agent of the same, the Issuer shall deliver to the Principal Paying Agent a certificate signed by two authorised signatories of the Issuer:
 - (A) confirming (x) that a Benchmark Event has occurred, (y) the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate and, (z) where applicable, any relevant Adjustment Spread and/or the specific terms of any relevant Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7(j); and
 - (B) certifying that the relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate, Alternative Rate and/or Adjustment Spread.
- (gg) The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate and such Adjustment Spread (if any) and such Benchmark Amendments (if any)) be binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the other Paying Agents and the Noteholders.
- (hh) As used in this Condition 7(j):

"Adjustment Spread" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Advisor determines is required to be applied to the relevant Successor Rate or the relevant Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (B) (if no such recommendation has been made, or in the case of an Alternative Rate), the Independent Advisor, determines is customarily applied to the relevant Successor Rate or Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Reference Rate; or

- (C) (if no such recommendation has been made, or in the case of an Alternative Rate) the Independent Advisor determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or
- (D) (if the Independent Advisor determines that no such industry standard is recognised or acknowledged) the Independent Advisor determines to be appropriate.

"Alternative Rate" means an alternative benchmark or screen rate which the Independent Advisor determines in accordance with Condition 7(j) is customary in market usage in the international debt capital markets for the purposes of determining floating rates of interest (or the relevant component part thereof) in the Specified Currency.

- (C) a public statement by the supervisor of the administrator of the relevant Reference Rate that such Reference Rate has been or will, by a specified date within the following six months, be permanently or indefinitely discontinued; or
- (D) a public statement by the supervisor of the administrator of the relevant Reference Rate that means that such Reference Rate will, by a specified date within the following six months, be prohibited from being used or that its use will be subject to restrictions or adverse consequences, either generally or in respect of the Notes; or
- (E) a public statement by the supervisor of the administrator of the relevant Reference Rate (as applicable) that, in the view of such supervisor, (i) such Reference Rate is no longer representative of an underlying market or (ii) the methodology to calculate such Reference Rate has materially changed; or
- (F) it has or will, by a specified date within the following six months, become unlawful for the Calculation Agent to calculate any payments due to be made to any Noteholder using the relevant Reference Rate (as applicable) (including, without limitation, under the EU Benchmarks Regulations (EU) 2016/1011, if applicable).

"Benchmark Amendments" has the meaning given to it in Condition 7(j)(dd).

"**Successor Rate**" means a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

- (a) **Application:** This Condition 8 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) **Late payment on Zero Coupon Notes:** If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:
 - (i) the Reference Price; and
 - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

9. **Redemption and Purchase**

jurisdiction), which change or amendment becomes effective on or after the date of issue of the first Tranche of Notes; and

- (B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

- (1) where the Notes may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due; or
- (2) where the Notes may be redeemed only on an Interest Payment Date, 60 days prior to the Interest Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Principal Paying Agent (A) a certificate signed by an authorised signatory of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred of and (B) an opinion of independent legal advisors of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Quotation Agent shall (in the absence of manifest error) be final and binding upon all parties.

- (d) ***Partial redemption:*** If the Notes are to be redeemed in part only on any date in accordance with Condition 9(c) (A) (*Redemption at the option of the Issuer*), Condition 9(c) (B) (*Issuer Refinancing Call*), Condition 9(c) (C) (*Make-whole Redemption by the Issuer*), the Notes to be redeemed shall be selected by the drawing of lots in such place as the Principal Paying Agent approves and in such manner as the Principal Paying Agent considers appropriate, subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the notice to Noteholders referred to in Condition 9(c) (A) (*Redemption at the option of the Issuer*), Condition 9(c) (B) (*Issuer Refinancing Call*), Condition 9(c)(C) (*Make-whole Redemption by the Issuer*), shall specify the serial numbers of the Notes so to be redeemed. The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Noteholder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 9(e), may be withdrawn; **provided, however, that** if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. - (i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; **provided, however, that** if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;
 - (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the "**Relevant Coupons**") being equal to the amount of principal due for payment; **provided, however, that** where this subparagraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; **provided, however, that**, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in paragraph (a) above against presentation and (**provided that** payment is made in full) surrender of the relevant missing Coupons.

- (f) ***Unmatured Coupons void:*** If the Floating Rate Note Provisions are applicable, on the due date for final redemption of any Note or early redemption in whole of such Note pursuant to Condition 9(b) (*Redemption for tax reasons*), Condition 9(c) (A) (*Redemption at the option of the Issuer*), Condition 9(c) (B) (*Issuer Refinancing Call*), Condition 9(c) (C) (*Make-whole Redemption by the Issuer*), Condition 9(c) (*Redemption at the option of the Noteholders*) or Condition 12 (*Events of Default*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.
- (g) ***Payments on business days:*** If the due date for payment of any amount in respect of any Note or Coupon is not a Payment Business Day in the place of presentation, the holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.
- (h) ***Payments other than in respect of matured Coupons:*** Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Notes at the Specified Office of any Paying Agent outside the United States (or in New York City if permitted by paragraph (c) above).
- (i) ***Partial payments:*** If a Paying Agent makes a partial payment in respect of any Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.

Upon the due date for redemption of any Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

11. **Taxation**

In that event, the Issuer shall pay such additional amounts as will result in receipt by the Noteholders and the Couponholders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any Note or Coupon presented for payment:
- (i) by or on behalf of a holder which is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of its having some connection with the jurisdiction by which such taxes, duties, assessments or charges have been imposed, levied, collected, withheld or assessed other than the mere holding of the Note or Coupon;

The initial Paying Agents and their initial Specified Offices are listed below. The initial Calculation Agent (if any) is specified in the relevant Final Terms. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent and to appoint a successor Principal Paying Agent or Calculation Agent and additional or successor paying agents; **provided, however, that:**

- (a) the Issuer shall at all times maintain a Principal Paying Agent; and

Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and shall be convened by it upon the request in writing of Noteholders holding not less than 5 per cent. of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Persons holding or representing more than fifty per cent. of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, two or more Persons being or representing Noteholders whatever the principal amount of the Notes held or represented; **provided, however, that** Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Persons holding or representing not less than two-thirds or, at any adjourned meeting, one-third of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

- (b) **Modification:** The Notes and these Conditions may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error, determined solely by the Issuer. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of the Issuer, not materially prejudicial to the interests of the Noteholders.

17. **Further Issues**

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes.

18. **Notices**

All notices regarding the Notes shall be published (i) in at least one daily newspaper of wide circulation in The Netherlands and (ii) if and for so long as the Notes are listed on Euronext, in such form as the rules of that exchange require. Any such notice will be deemed to have been given on the date of the first publication in all the newspapers in which such publication is required to be made.

While all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, except that, for so long as such Notes are admitted to trading on Euronext and it is a requirement of applicable law or regulations, such notices shall be published in accordance with the paragraph above.

Notices to be given by any holder of the Notes shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Principal Paying Agent. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Agent through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

19. **Currency Indemnity**

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Principal Paying Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

20. **Rounding**

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts

denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

21. **Governing Law and Jurisdiction**

Without prejudice to the foregoing, the Issuer further irrevocably agrees that any Dispute arising out of or in connection with the Agency Agreement, the Notes, the Coupons and the Talons (including any non-contractual obligation arising out of or in connection with the Notes) may be brought in any other competent court of Member States in accordance with Brussels Ia Regulation or of states that are parties to the Lugano II Convention, nor shall the taking of a Dispute in one or more jurisdictions identified in this clause that are competent to hear such Dispute preclude the taking of a Dispute in any other jurisdiction identified in this clause that are competent to hear such Dispute (whether concurrently or not to the extent that the bringing of such proceedings is not contrary to relevant law).
- (c) For the purpose of this clause:

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to "**Noteholder**" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

In case of Notes which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess such minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. So long as such Notes are represented by a Temporary Global Note or Permanent Global Note and the relevant clearing system(s) so permit, these Notes will be tradable only in the minimum Specified Denomination increased with integral multiples of another smaller amount, notwithstanding that Definitive Notes shall only be issued up to, but excluding, twice the minimum Specified Denomination.

Conditions applicable to Global Notes

Each Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of an NGN the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

Exercise of put option: In order to exercise the option contained in Condition 9(e) (*Redemption at the option of Noteholders*) the bearer of the Permanent Global Note must, within the period specified in the Conditions for the deposit of the relevant Note and put notice, give written notice of such exercise to the Principal Paying Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 9(c) (A) (*Redemption at the option of the Issuer*), Condition 9(c) (B) (*Issuer Refinancing Call*) or Condition 9(c) (C) (*Make-whole Redemption by the Issuer*), in relation to some only of the Notes, the Permanent Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

Notices: Notwithstanding Condition 19 (*Notices*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depositary

or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 19 (*Notices*) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, except that, for so long as it is a requirement of applicable law or regulations, such notices shall be published (i) in at least one daily newspaper of wide circulation in The Netherlands and (ii) if and for so long as the Notes are listed on Euronext in such form as the rules of that exchange require.

HISTORY AND DEVELOPMENT OF STEDIN GROUP

Stedin Group's organisation

Stedin Group is a semi-public organisation: a public limited company whose shares are owned by government authorities: 61 Dutch municipalities, two provinces and the Dutch State. Stedin Group consists of several business units: grid manager Stedin operates in the regulated market for the transport and distribution of gas and electricity, while our infra partners NetVerder and DNWG Infra carry out non-regulated activities. Stedin Netbeheer, NetVerder and DNWG Infra are separate subsidiaries of Stedin Holding. More information on the various business units can be found on the Stedin Group website.

Stedin Group's activities

With Stedin Group's gas and electricity grids, Stedin Group is a vital link in our coverage area. Stedin Group concentrates on all activities related to building, managing and maintaining these energy grids and facilitating the energy market in its service area. Stedin Group is also preparing to play a role in developing heat grids as part of the new integrated energy system. Stedin Group is already gaining experience in this area with the construction of the heat grid in Delft.

Stedin Group's service area

Stedin Group manages and maintains the energy grids in most of South Holland, Utrecht and Zeeland. Stedin Group's coverage area is home to roughly 5.5 million people and includes three of the four largest cities in The Netherlands, the port and industrial areas of Rotterdam and Zeeland, as well as greenhouse horticulture regions. It also includes parts of the provinces of North Holland and Friesland. Stedin Group operates and has its registered office in The Netherlands.

In its role as Grid Company, Stedin Group is responsible for the regional distribution of electricity and gas. Stedin's gas and electricity grids are a vital link for society and economic activities in Stedin Group's service area. More than 2.3 million private and business customers rely on Stedin Group for their energy supply, day and night.

Stedin Group collaborates with other players in the energy supply chain. These include electricity and gas producers, the national grid managers of electricity and gas TenneT and Gasunie, Stedin Group's suppliers and other regional grid managers and organisations that monitor the reliability, affordability, safety and

sustainability of the energy supply. Stedin Group operates alongside five other regional grid operators in a regulated market. Each regional grid operator is a monopolist in its area of operations.

Stedin Group focuses on all activities relating to constructing, managing and maintaining energy grids and also facilitates the energy market. Stedin Group is comprised of the Grid Company, which operates in the regulated electricity and gas domain. In addition, Stedin Group conducts non-regulated activities, under the names of NetVerder and DNWG. The Issuer is the holding company of the Stedin Group and the Issuer's income depends on dividends received from its subsidiaries. The Issuer holds full ownership of the regulated grid operator Stedin Netbeheer and the non-regulated infrastructure specialist DNWG Infra.

A non-regulated activity will only be included in Stedin Group's portfolio if it demonstrably contributes towards efficient grid management, if it helps to fill a gap in the market and if Stedin Group is uniquely positioned to perform it.

The main activity of Stedin Group is to ensure a safe, reliable and affordable energy supply. Stedin Group consists of the following operating entities:

- Stedin Netbeheer achieves this by constructing and managing the electricity grid and gas network and preparing them for the future, and by facilitating the energy market. Stedin Netbeheer operates in the provinces of South Holland, Utrecht and Zeeland, as well as in parts of Northeast-Friesland and Kennemerland regions.
- The subsidiary DNWG Infra provides construction and maintenance of gas and electricity infrastructure in Zeeland on behalf of Stedin Netbeheer. It also realises projects and connections for the Evides water grid in Zeeland and on Goeree-Overflakkee. The water-related operations for Evides will end by May 2026 at the latest.
- The subsidiary NetVerder helps achieve the energy transition by developing, constructing and maintaining energy infrastructures for heat and steam. It also focuses on the independent transmission and distribution of other new energy sources or carriers.

Subsidiaries of Stedin Holding N.V. (in alphabetical order, as at the date of this Base Prospectus):

- DNWG Infra B.V.
- DNWG Warmte B.V.
- Infradock B.V.
- N.V. Stedin Netten Noord-Holland
- N.V. Stedin Noord-Oost Friesland
- NetVerder B.V.
- Stedin Groep Personeels B.V.
- Stedin Groep Services B.V.
- Stedin Netbeheer B.V.

The Issuer also participates in two joint ventures: Utility Connect B.V. and Tensz B.V. Utility Connect is active in the field of reading measurement data from smart meters using the data bandwidth of a CDMA-based telecommunications network. Tensz is the management organisation of Tennet and Stedin Netbeheer for joint assignments related to management and maintenance of medium-voltage and high-voltage grids and installations. Furthermore, Stedin Group has two associated companies; Energie Data Services Nederland B.V. and Het Normo.

CORPORATE STRATEGY

Stedin Group is working towards a reliable and future-proof grid by executing its 2023 - 2027 strategy. The core of its strategy is based around expanding its grid capacity while keeping grid quality high. Stedin Group will achieve this by accelerating construction, better utilising grids and continuing to manage grids reliably, and doing this as sustainably as possible.

Mission and Vision

Stedin Group is committed to working together to create an environment filled with new energy. Stedin Group aims to enable the energy transition by accelerating construction, and by better utilising and effectively managing energy networks.

Ensuring network capacity

Construction: Stedin Group is laying even more cables and pipelines and building additional stations. In this way, Stedin Group can connect its customers to its energy network, including new customers and electricity generators.

Optimisation: construction alone will not suffice. Stedin Group must make even better use of the current grid by optimally matching supply and demand, and by using the available grid capacity in the smartest possible way. This will reduce grid congestion.

Ensuring network quality

Management: Stedin Group wants to maintain the quality of its performance. Among other things, Stedin Group does so by safeguarding the quality of its energy network. Stedin Group's top priority is to continue to ensure a reliable and safe energy supply.

Conditions for success

Stedin Group can only successfully implement its strategic priorities of Construction, Optimisation and Management if it ensures the right enabling conditions are in place. For instance, Stedin Group needs enough skilled people to do the job, its infrastructure needs to be secure, and Stedin Group needs to remain financially sound.

Rationale for Green Financing

Timely and sufficient availability of funding on the most favourable terms continues to be a key precondition for achieving the Stedin Group's strategy. The European capital market offers the Stedin Group the opportunity to raise funding on favourable terms and to attract sustainable investors. This aligns with the Stedin Group's aim to finance their operations by issuing green bonds. Stedin Group believes that Green Bonds are an effective tool to channel investments to projects that have demonstrated climate benefits and thereby contribute to the achievement of the UN SDGs, the Dutch Climate Agreement and the EU Environmental Objectives (Climate Change Mitigation in particular). By issuing Green Bonds, Stedin Group intends to align its funding strategy with its mission, sustainability strategy and objectives. The energy transition is a sustainability priority for Stedin Group. To be able to achieve this priority, Stedin Group will have to invest in the grid network to facilitate the increase of the share of sustainable sources of energy in the Dutch energy system and therefore contribute to the transformation of the country, ultimately accelerating the Dutch energy transition. In addition, Stedin Group aims to contribute to the development of the green finance market and to the growth of SRI investing.

Stedin Group's ESG strategy

Stedin Group's environmental, social and governance ("ESG") strategy towards 2030 is divided into five themes. Further to Good Employment Practices (Social) and Good Governance (Governance), there are three other themes, which all fall under Environment: *Climate Mitigation*, *Circular Material Use* and *Biodiversity in the Chain*. These themes were determined using a dual materiality analysis, which considers the impact on and by the company.

Stedin Group has opted to focus its strategy on areas where it can make the most impact on what is essential for society and the climate. Stedin Group is committed to reducing its negative impact on biodiversity and prepare for the effects of climate changes, such as extreme rainfall and heat. The implementation of Stedin Group's strategic priorities places high demands on Stedin Group's employees and organisation. Key values in this context are to work safely, operate with integrity and transparency and work together with stakeholders on creating sustainable value in the long term. Stedin Group believes that the combination of responsibility, ambition and transparency leads to the greatest possible positive impact on society and the climate. In July 2025 Stedin Group published an update of its ESG Strategy from January 2024 addressing its core ESG values and strategy.

The Directive (EU) 2022/2464 regarding corporate sustainability reporting ("**CSRD**") imposes certain transparency requirements on companies in Europe as a way to achieve and accelerate sustainable ambitions. Pending the official implementation of the CSRD in Dutch legislation, Stedin Group has already chosen to report on its sustainability-related impact, risks and opportunities in accordance with the requirements of the CSRD and the European Sustainability Reporting Standards (ESRS) in its 2024 annual report.

THE REGULATORY FRAMEWORK

The ACM supervises the correct implementation of the Electricity Act 1998 (*Elektriciteitswet 1998*) and the Gas Act (*Gaswet*). The ACM ensures the effective and efficient functioning of the energy market and the protection of customer interests through the implementation of various regulatory instruments. This includes safeguarding access to networks, maintaining sufficient transparency (access to essential information) and protecting consumers against potential malpractices.

As of December 2024, the Ministry of Economic Affairs has finalised a new energy act, which consolidates the existing Electricity Act 1998 and Gas Act, adjusts the Dutch legislation to relevant European legislation and inserts flexibility to comply with requirements for the Dutch renewable energy transition. The new legislation has been approved by parliament and will come into force per 1 January 2026.

The ACM monitors the capability of the Grid Company to meet the financial requirements for managing the electricity and gas grid, including required and planned investments. The Grid Company submits its statutory and regulatory financial statements to the ACM annually, including results, assets and infrastructure related activities (maintenance and investments). Furthermore, end-user tariffs for the distribution of electricity and gas (which generates the revenues for the Grid Company) are controlled by the ACM and currently depend on a series of consecutive regulatory decisions, in particular the Regulation Method Decision, the Efficiency Discount Decision (x-factor), Quality Factor Decision (q-factor) and the Accounting Volume Decision, which are applicable to a certain price control period (the "**Method Decisions**"), and finally the annual tariff decisions. The Method Decisions for the current regulation period, published by the ACM in September 2021, apply for the longest legally possible period of 5 years. By opting for this long term, the ACM aims to stimulate Dutch grid operators to operate efficiently and also to offer customers as much tariff stability as possible. The Method Decisions have been challenged in court and in 2023 the court has forced the ACM to amend the Method Decisions in favour of the Grid Company.

The Trade and Industry Appeals Tribunal (CBb) issued a ruling on appeals lodged by grid managers (regional grid managers, TenneT and GTS) against the method decisions of the ACM. Consequently, the ACM has been forced by the court to amend the WACC calculation for both the electricity and gas Method Decisions for the current regulation period (2022 – 2026). For the electricity Method Decision the method for estimating the future cost development had to be changed as well as the estimate for the efficient cost. the Efficiency Discount Decision (x-factor) for electricity will lead to annually increased transport tariffs for electricity. For gas the x-factor leads to annually decreased transport tariffs but less so than before the appeal. The court decision will lead to a significant increase in income over the years 2024 to 2026 to catch up with the missed revenues in 2022 and 2023. The tariffs are also yearly corrected for the consumer price index (CPI) thereby increasing the revenues.

The level of permitted revenues of the Grid Company includes a component based on the WACC. The variables used to calculate the WACC consist of estimates for the cost of equity, the cost of debt, the relative percentages of debt and equity in the capital structure of a nominally financed, theoretical Grid Company, the corporate tax rate and the consumer price index. The cost of equity represents the expected return on investment for the shareholders. The Issuer is the sole direct and indirect shareholder of the Grid Company. The cost of debt represents the expected cost of debt for a company with an "A" credit rating. As is the case for almost all other cost factors, the ACM bases the WACC on data preceding the regulation period for which the WACC is determined. Thus, the WACC may incorrectly reflect the costs of capital which the Grid Company will effectively incur during the relevant regulation period. The WACC has been set for the current regulation period (2022 – 2026). For electricity grids this will now vary, after the court appeal, from 2.4 per cent. for 2022 increasing to 2.8 per cent. for 2026 and for gas grids this will vary from 3.3 per cent. to 3.7 per cent.. The WACC for gas grids is a nominal figure whilst that for electricity grids incorporates only 50 per cent. of current inflation expectations. Furthermore, the ACM does re-calculate the risk free rate component of the WACC retrospectively and include deviations from the expected risk free rate in the following year's tariffs. In addition, the actual capitalisation of the Grid Company may differ from the 45/55 debt/equity ratio assumed in the Method Decisions, which would also have an impact on the profitability of the Grid Company. Finally, the actual corporate tax rate may deviate from the corporate tax

rate assumed in the Method Decisions, which would have an impact on the profitability of the Grid Company.

The ACM has announced a new set-up for the Method Decisions for the new regulatory period that begins per 1 January 2027 and lasts through to 31 December 2031. Instead of the yardstick competition the basis for the new framework will be a cost-plus approach. The Dutch distribution system operators ("DSO's") and the Dutch transmission system operators ("TSO's") will receive their expected cost in year $t=0$. In $t=2$ there will be a reimbursement for any occurred differences between the actual cost and actual income. To ensure efficiency the ACM will monitor the DSO's and TSO's performance against KPI's. For performance that is deemed not efficient the grid company will be given the opportunity to improve. If even after being given the opportunity to improve the grid company is still deemed inefficient the ACM can decrease the allowed income. This new method applies for 5 years. The new energy act allows for a period of between 4 and 6 years.

In the new framework there will no longer be an x-factor or a q-factor. Before the start of the new regulatory period the ACM will announce an income decision (*inkomstenbesluit*) that shows the total expected cost per grid company for that period which equals the allowed income. Every subsequent annual update of the expected cost will result into an update of the allowed income.

In the new method the WACC for the electricity grids will also be a nominal WACC.

In the new method the WACC will be adjusted annually based on the actual interest rate part in the cost of debt and cost of equity, both ex-ante and ex-post. The WACC will also be adjusted for any changes in the corporate tax rate. For the cost of debt of RAB the ACM will look at the individual development of the RAB of the electricity Grid Company to determine the weight of the cost of debt for the corresponding year in the total cost of debt. Thus, there will be individual WACC's per electricity Grid Company based on differences in the development of the RAB.

For the gas domain the calculation of the cost of debt in the WACC for existing RAB will not change.

CAPITAL MARKET AND MONEY MARKET ACTIVITIES

In 2024, the Issuer increased the size of its EMTN Programme from EUR 3 billion to EUR 5 billion. On 30 June 2025, senior bonds totalling EUR 3.5 billion have been issued under the Programme. The Issuer issued a EUR 500 million perpetual hybrid bond in March 2021.

The Issuer also has a EUR 1,500 million ECP programme. EUR 100 million was issued under the ECP programme as at 31 December 2024.

The Issuer has available a committed backup revolving credit facility for an amount of EUR 800 million with six banks. The facility is available until June 2029. The facility is undrawn as per the date of this Base Prospectus.

The Issuer further has a committed credit facility for an amount of EUR 500 million with the European Investment Bank. The facility is available until March 2028. There was EUR 250 million loan drawn under the facility as of the date of this Base Prospectus.

Financing and banking policy

Stedin Group has access to the capital and money markets, optimises its financing structure and costs in conjunction with financial parameters set by the regulator in each regulation period and minimises its financing risks. The financing policy is designed to ensure timely and permanent financing and is approved by the supervisory board.

Stedin Group maintains long-term relationships with at least six banks to secure the availability of adequate stand-by banking facilities. These banks are Dutch banks as well as international banks which have adequate standing, offer a wide range of products and have strong credit ratings.

The financing and banking policy is implemented by its treasury department which duties include amongst others:

- advising on and effecting external and internal funding transactions;

- conduct of day-to-day cash management;
- mitigating exchange-rate, inflation and interest-rate risks; and
- maintaining contacts with banks, rating agencies and other financial stakeholders regarding treasury-related matters.

The treasury department has no profit target and is a cost centre. It uses a conservative financial policy regarding open financial positions and derivatives. The treasury department acts in accordance with its mandate as described in the "Treasury Statute".

CREDIT RATING

The Issuer has a public rating by S&P since 2001. In S&P's report of 30 January 2025, the "A- with a stable outlook" long-term issuer credit ratings of each of the Issuer and Stedin Netbeheer have been affirmed. The stable outlook reflects S&P's view that the Issuer will be able to maintain a ratio of funds from operations to debt of well above 9 per cent. over the medium term.

The Dutch state became a 11.9 per cent. owner in the Issuer in December 2023 after injecting EUR 500 million common equity, which confirms S&P's view of moderately likely extraordinary support from the government.

The Issuer has a long-term credit rating target of an A rating profile which provides a buffer in relation to the minimum statutory required creditworthiness of an 'investment grade rating (BBB/Baa2)' for the Issuer, as stated in the Financial Management of Grid Managers Decree (*Besluit Financieel Beheer Netbeheerders*).

DIVIDEND POLICY

The articles of association of the Issuer provide that until 31 December 2033, for each of the fiscal years 2023 through 2032, a derogatory dividend policy shall apply. For this period, in respect of profits available for distribution after application of articles 29.3 to 29.9 of the Issuer's articles of association, the following profit appropriation has been laid down in the so-called shareholders' covenant:

1. Of profits up to and including an amount of EUR 20,000,000, 10 per cent. will be added to the ordinary profit reserve.
2. In addition to the reserve pursuant to section 1, the following applies:
 - a. if the profit exceeds EUR 20,000,000, but does not exceed EUR 100,000,000, 70 per cent. of the excess above EUR 20,000,000 shall be added to the ordinary profit reserve.
 - b. if the profit exceeds EUR 100,000,000, the following shall be added to the ordinary profit reserve:
 - i. 70 per cent. of EUR 80,000,000 (being the excess above EUR 20,000,000 up to EUR 100,000,000); and
 - ii. 82 per cent. of the excess above EUR 100,000,000.
3. The profit that will not be set aside pursuant to sections 1 and 2 is free at the disposal of the annual general meeting.

USE OF PROCEEDS

The net proceeds from each issue of Notes will be applied, as indicated in the relevant Final Terms, either:

- (a) for general corporate purposes; or
- (b) to finance and/or refinance, in whole or in part, Eligible Green Assets. Such Notes may also be referred to as "**Green Bonds**". Such Notes are not issued as European Green Bonds in accordance with Regulation 2023/2631 (the "**EuGB Regulation**").

Stedin Group Green Finance Framework (as defined below) is an overarching platform under which Stedin Group intends to issue Green Bonds. The net proceeds from Green Bonds will be allocated towards Eligible Green Assets in the renewable energy category.

Eligible Green Assets

Eligible Green Assets are defined as assets that meet the eligibility criteria as set out in the table below.

Eligible Green Asset Category (ICMA/GBP)	EU Taxonomy activity	Eligibility Criteria	Green Finance Eligibility	UN SDGs
Renewable Energy	Climate Change Mitigation (CCM) 4.9: Transmission and distribution of electricity NACE codes [D35.13, D35.14]	All electricity grid assets that meet the Technical Screening Criteria of the EU Taxonomy activity 4.9 This includes (Smart) electricity grid equipment and/or infrastructure to carry information to/from users for remotely acting on consumption, including smart electricity meters	100% of Net Asset Value	7.1, 7.2, 9.1  

Process for evaluation and selection

Stedin Group has processes and systems in place to determine the eligibility of the nominated assets, in accordance with the description of the eligibility criteria, as derived from a Green Finance Framework developed by the Issuer (the "**Stedin Group Green Finance Framework**"). These include procurement and reporting systems. Furthermore, Stedin Group is required to report annually to its regulation on the development of these assets. This ensures that Eligible Green Assets align with the EU Taxonomy's economic activities set out in Article 3 of the EU Taxonomy. The alignment is further assessed through the EU Taxonomy screening process as part of annual reporting. The Stedin Group Green Finance Framework is structured in alignment with the ICMA Green Bond Principles (GBP) 2025 and the Loan Market Association (LMA), Asia Pacific Loan Market Association (APLMA) and Loan Syndications and Trading Association (LSTA) Green Loan Principles (GLP) 2025.

Within Stedin Group, the ESG steering committee is responsible for monitoring the progress of environmental aspects of the ESG strategy and sets targets. The ESG steering committee is also charged with taking decisions on projects related to implementation and execution of (environmental aspects of) Stedin Group's ESG strategy.

EU Taxonomy alignment

Stedin Group seeks to align with the EU Taxonomy on a best-effort basis. In Stedin Group's 2024 annual report, Stedin Group stated that it was not yet able to demonstrate full alignment with the EU Taxonomy. Stedin Group was able to meet the 'substantial contribution' criteria for climate change mitigation as well as 'do no significant harm' criteria but was not yet able to demonstrate full compliance with minimum social safeguards, specifically in the area of human rights.

For further information on Stedin's taxonomy alignment reference is made to Stedin Group's 2024 annual report and prospective reporting. The Issuer's activities are EU Taxonomy eligible and the Issuer concludes that by enhancing the distribution capacity of the Dutch electricity grid and therefore distribution capacity of renewable electricity through its grids, the Issuer is making a significant contribution to climate change mitigation. EU Taxonomy eligibility is also the basis for the Issuers' Green Financing Framework and the issuance of any "Green Bonds" by the Issuer.

Management of proceeds

The proceeds of Green Bonds issued under the Stedin Group Green Finance Framework will be managed by Stedin Group (on an aggregated basis) on a portfolio level. Stedin Group can allocate proceeds from Green Bonds gradually over the lifetime of the issued instrument; however, Stedin Group aims to allocate the proceeds within a timeframe of 12 months after issuance, in accordance with best market practice. To monitor that the net proceeds of Green Bonds are entirely allocated to assets that meet the eligibility criteria, all Eligible Green Assets will be logged and followed by Stedin Group in an internal accounting system. Stedin Group will log all Green Bonds, including tranches, into its internal systems.

Pending the allocation to the Eligible Green Assets, unallocated proceeds will be invested in accordance with Stedin's liquidity guidelines, in cash, deposits or money market instruments or any other treasury activity. Where possible, preference will be given to ESG or sustainability-labelled instruments.

No proceeds will be allocated to transitional economic activities, or activities related to nuclear energy and fossil gas in accordance with Articles 10(2) and 11(3) of the EU Taxonomy.

Reporting and external review

The Issuer will make and keep publicly available reporting on the allocation of net proceeds to the Eligible Green Assets portfolio and wherever feasible reporting on the impact of the Eligible Green Assets portfolio. Such reports will be published on the Issuer's investor relations website, (<https://www.stedingroep.nl/eng/investor-relations>), approximately twelve (12) months after the issuance.

The Stedin Group Green Finance Framework has been reviewed by ISS-ESG. ISS has provided a second party opinion (the "**Second Party Opinion**").

The information provided in this Base Prospectus in relation to the Stedin Group Green Finance Framework is in summarised form. The Stedin Group Green Finance Framework is not incorporated by reference into this Base Prospectus but is available for viewing on the website, <https://www.stedingroep.nl/investor-relations>.

No description of the impact pre-issuance of the Green Bonds

The Issuer is unable to provide a specific description of the impact pre-issuance of Green Bonds. The proceeds of the Green Bonds will be used to finance or refinance, in whole or in part, Eligible Green Assets that execute the energy transition and the EU environmental objective of climate change mitigation. The proceeds of the Green Bonds will thus be allocated to current and future projects, for which the Issuer is unable to provide a description on the impact pre-issuance of the Green Bonds. First, the impact is not auditable at issuance and second, the Issuer wants to prevent misrepresentation for investors, as the impact pre-issuance could only be described in generic terms and most likely differs every year. Third, there is also methodology risk that may arise if a description of the impact pre-issuance of the Notes would be included in this Base Prospectus. This risk is related to CO2 emission numbers, which numbers are not measured but calculated. The calculation methods change over time, which would potentially lead to a misrepresentation of final impact versus the impact that would have been included in this Base Prospectus if a description of the impact pre-issuance had been included in this Base Prospectus. This could lead to an accusation of the Issuer overstating or understating the emissions avoided. It would require complex additional risk factors in the documentation. Hence, the Issuer cannot facilitate the request of including a specific description of the impact pre-issuance.

TAXATION

The following is a general description of certain Dutch tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. Prospective purchasers of Notes should consult their own tax advisors as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

TAXATION IN THE NETHERLANDS

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Note, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph "*Taxes on income and capital gains*" below, the term "**entity**" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

For the purpose of the paragraph "*Taxes on income and capital gains*" below, it is assumed that a holder of a Note, being an individual or a non-resident entity, neither has nor will have a substantial interest (*aanmerkelijk belang*), or – in the case of the holder being an entity – a deemed substantial interest, in the Issuer and that a connected person (*verbonden persoon*) to the holder of a Note neither has nor will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) the individual, either alone or together with the individual's partner, directly or indirectly has or is deemed to have, or (b) certain relatives of the individual or the individual's partner directly or indirectly have or are deemed to have, (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent. or more of either the total issued and outstanding capital of the company or the issued and outstanding capital of any class of shares of the company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of either the annual profit or the liquidation proceeds of the company.

Generally speaking, a non-resident entity has a substantial interest in a company if the entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent. or more of either the total issued and outstanding capital of the company or the issued and outstanding capital of any class of shares of the company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of either the annual profit or the liquidation proceeds of the company. Generally, a non-resident entity holding a Note has a deemed substantial interest in a company if the entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Note or otherwise being regarded as owning a Note for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the summary refers to "**The Netherlands**" or "**Dutch**" it refers only to the European part of the Kingdom of The Netherlands.

Where this summary refers to Notes, such reference includes Coupons.

Investors should consult their professional advisors on the tax consequences of their acquiring, holding and disposing of a Note.

Withholding tax

All payments of principal and interest by the Issuer under a Note can be made without withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, save that Dutch withholding tax may apply on certain (deemed) payments of interest made to an affiliated (*gelieerde*) entity of the Issuer if such entity (i) is considered to be resident (*gevestigd*) in a jurisdiction that is listed in the annually updated Dutch Regulation on low-taxing states and non-cooperative jurisdictions for tax purposes (*Regeling laagbelastende staten en niet-coöperatieve rechtsgebieden voor belastingdoeleinden*), or (ii) has a permanent establishment located in such jurisdiction to which the interest is attributable, or (iii) is entitled to the interest payable for the main purpose or one of the main purposes to avoid taxation for another person, or (iv) is not considered to be the recipient of the interest in its jurisdiction of residence because such jurisdiction treats another (lower-tier) entity as the recipient of the interest (a hybrid mismatch), or (v) is not treated as resident anywhere (also a hybrid mismatch), or (vi) is a reverse hybrid whereby the jurisdiction of residence of a participant that has a qualifying interest (*kwalificerend belang*) in the reverse hybrid treats the reverse hybrid as tax transparent and that participant would have been taxable based on one (or more) of the items in (i)-(v) above had the interest been due to the participant directly, all within the meaning of the Withholding Tax Act 2021 (*Wet bronbelasting 2021*).

Taxes on income and capital gains

Residents

Resident entities

An entity holding a Note which is or is deemed to be resident in The Netherlands for Dutch corporate tax purposes and which is not tax exempt, will generally be subject to Dutch corporate tax in respect of income or a capital gain derived from a Note at the prevailing statutory rate (up to 25.8 per cent. in 2025).

Resident individuals

An individual holding a Note who is or is deemed to be resident in The Netherlands for Dutch income tax purposes will generally be subject to Dutch income tax in The Netherlands in respect of income or a capital gain derived from a Note at the prevailing statutory rates (up to 49.5 per cent. in 2025) if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, the individual will in principle be subject to Dutch income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. For 2025, separate deemed return percentages for savings, debts and investments apply. A deemed return for the category investments (including the Notes) of 5.88 per cent. is applicable as at the beginning of the relevant calendar year. The applicable percentages should be updated annually on the basis of historic market yields.

However, if the individual demonstrates that the actual return – calculated in accordance with the Counterevidence Act (*Wet tegenbewijsregeling box 3*) – is lower than the applicable deemed return, the taxable basis should be that lower amount.

The individual's taxable income from savings and investments (including the Notes) will be taxed at the prevailing statutory rate (36 per cent. in 2025).

Non-residents

A holder of a Note which is not and is not deemed to be resident in The Netherlands for Dutch tax purposes will not be subject to Dutch taxation on income or a capital gain derived from a Note, unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in The Netherlands or carried on through a permanent establishment (*vaste inrichting*) or permanent representative (*vaste vertegenwoordiger*) taxable in The Netherlands and the holder of a Note derives profits from such enterprise (other than by way of the holding of securities); or
- (ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and inheritance taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a holder of a Note, unless:

- (i) the holder of a Note is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions.

Value added tax

There is no Dutch value added tax payable by a holder of a Note in respect of payments in consideration for the acquisition of a Note, payments of principal or interest under a Note, or payments in consideration for a disposal of a Note.

Other taxes and duties

There is no Dutch registration tax, stamp duty or any other similar Dutch tax or duty payable in The Netherlands by a holder of a Note in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgment in the courts of The Netherlands) of a Note or the performance of the Issuer's obligations under a Note.

Residence

A holder of a Note will not be and will not be deemed to be resident in The Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Note or the execution, performance, delivery and/or enforcement of a Note.

FATCA

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a foreign financial institution (as defined by FATCA) may be required to withhold on certain payments it makes (foreign pass thru payments) to persons that fail to meet certain certification, reporting or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including The Netherlands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (IGAs), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA

or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and the Notes issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. However, if additional Notes (as described under "Terms and Conditions—Further Issues") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

SUBSCRIPTION AND SALE

Notes may be sold from time to time by the Issuer to ABN AMRO Bank N.V., BNP PARIBAS, Coöperatieve Rabobank U.A., ING Bank N.V., NatWest Markets N.V. and Skandinaviska Enskilda Banken AB (Publ) (the "**Initial Dealers**") and any other Dealer appointed from time to time by the Issuer either generally in respect of the Programme or in relation to a particular Tranche of Notes (together, the "**Dealers**"). The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a Dealer Agreement dated 22 October 2025 (the "**Dealer Agreement**") and made between the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act ("**Regulation S**").

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Further each Dealer agrees and represents (and each additional Dealer named in the relevant Final Terms will be required to represent and agree) that:

- (i) except to the extent permitted under U.S. Treasury Regulations section 1.163-5(c)(2)(i)(D) (the "**D Rules**"), it has not offered or sold, and during the restricted period it will not offer or sell, Notes to a person who is within the United States or its possessions or to a U.S. person, and that it has not delivered and will not deliver with the United States or its possessions Definitive Notes that are sold during the restricted period;

and (iii) above on such affiliate's or distributor's behalf or agrees that it will obtain from such distributor for the benefit of the relevant Issuer the representations and agreements contained in such paragraphs; and

- (v) it shall obtain for the benefit of the relevant Issuer the representations, undertakings and agreements contained in sub-clauses (i), (ii), (iii), (iv) and (v) of this paragraph from any person other than its affiliate with whom it enters into a written contract, (a "**distributor**" as defined in U.S. Treasury Regulation section 1.163-5(c)(2)(i)(D)(4)), for the offer or sale during the restricted period of the Notes.

Terms used in these paragraphs have the meanings given to them by the D Rules.

Where the rules under U.S. Treasury Regulations section 1.163-5(c)(2)(i)(C) (the "**C Rules**") are specified in the relevant Final Terms as being applicable in relation to any Notes, the Notes must, in connection with their original issuance, be issued and delivered outside the United States and its possessions and, accordingly, each Dealer represents and agrees (and each additional Dealer named in the Final Terms will be required to represent and agree) that, in connection with the original issuance of the Notes:

- (i) it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, any Notes within the United States or its possessions; and

- (a) **Financial promotion:** it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer; and
- (b) **General compliance:** it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

The Netherlands

Zero Coupon Notes (as defined below) in definitive form may only be transferred and accepted, directly or indirectly, within, from or into The Netherlands through the mediation of either the Issuer or a member of Euronext Amsterdam N.V. in full compliance with the Dutch Savings Certificates Act (*Wet inzake Spaarbewijzen*) of 21 May 1985 (as amended). No such mediation is required in respect of (a) the transfer and acceptance of Zero Coupon Notes in definitive form between individuals not acting in the conduct of a business or profession, or (b) the transfer and acceptance of Zero Coupon Notes within, from or into The Netherlands if all Zero Coupon Notes (either in definitive form or as rights representing an interest in the Zero Coupon Note in global form) of any particular Series or Tranche are issued outside The Netherlands and are not distributed into The Netherlands in the course of their initial distribution or immediately thereafter. In the event that the Savings Certificates Act applies, certain identification requirements in relation to the issue and transfer of, and payments on, Zero Coupon Notes have to be complied with and, in addition thereto, if such Zero Coupon Notes in definitive form do not qualify as commercial paper traded between professional borrowers and lenders within the meaning of the agreement of 2 February 1987, attached to the Royal Decree of 11 March 1987, (*Staatscourant 129*) (as amended), each transfer and acceptance should be recorded in a transaction note, including the name and address of each party to the transaction, the nature of the transaction and the details and serial numbers of such Notes. For purposes of this paragraph "**Zero Coupon Notes**" means Notes that are in bearer form and that constitute a claim for a fixed sum against the Issuer and on which interest does not become due during their tenor or on which no interest is due whatsoever.

The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Base Prospectus (including any supplement or amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser

within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Selling restrictions may be supplemented or modified with the agreement of the Issuer. Any such supplement or modification may be set out in the relevant Final Terms (in the case of a supplement or modification relevant only to a particular Tranche of Notes) or in a supplement to this Base Prospectus.

The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

3. There are no governmental, legal or arbitration proceedings, (including any such proceedings which are pending or threatened, of which the Issuer is aware), which may have, or have had during the 12 months prior to the date of this Base Prospectus, a significant effect on the financial position or profitability of the Issuer and its Subsidiaries.

Significant/Material Change

4. There has been no material adverse change in the prospects of the Stedin Group since 31 December 2024 nor has there been any significant change in the financial position or the financial performance of the Stedin Group since 30 June 2025.

Auditors

5. The consolidated and company financial statements of the Issuer as of and for the years ended 31 December 2024 and 31 December 2023 have been audited without qualification by Deloitte Accountants B.V., Wilhelminakade 1, 3072 AP Rotterdam, The Netherlands, independent auditors. The auditor signing the auditor's reports on behalf of Deloitte Accountants B.V. is a member of The Netherlands Institute of Chartered Accountants (*Nederlandse Beroepsorganisatie van Accountants*).

The auditor's report included in the audited consolidated and company financial statements of the Issuer as of and for the year ended 31 December 2023 expresses an unqualified opinion and also includes an emphasis of the impact of the energy transition as explained in the report of the board of management on pages 28-29 of the Issuer's annual report as of and for the year ended 31 December 2023:

"Our focus on the energy transition

Climate change increasingly impacts our environment and society, in which the energy system will change drastically. As regional grid operator, Stedin Group plays a crucial role in this changing energy system.

The Board of Directors has summarized the effect of the energy transition on Stedin Group and its plans under the energy transition, including related impacts, challenges, uncertainties, and opportunities in the chapters "Where we are now" and "Full focus on further accelerating" of the annual report.

The impact of the energy transition on the financial statements is explained in note 2.3. It is mainly reflected in the increase in the level of investment in the electricity network and its financing as explained in note 13, note 22, and note 25. Additionally, the energy transition affects the assumptions regarding the estimation of the useful life and depreciation method of Stedin Group's assets, including its gas network, as explained in note 2.3.

As part of our audit of the financial statements, we evaluated how Stedin Group takes into account the effects of the energy transition in estimates and significant assumptions. We also refer to our Key Audit Matters of the audit.

Additionally, we have read the annual report and considered whether there is a material inconsistency with the financial statements. Finally, we have performed assurance work on specific non-financial information for which we refer to our separate assurance report."

In addition, the auditor's report included in the audited consolidated and company financial statements of the Issuer as of and for the year ended 31 December 2024 expresses an unqualified opinion and also includes an emphasis of the impact of the energy transition as explained in the report of the board of management on page 20 of the Issuer's annual report as of and for the year ended 31 December 2024:

"Focus on the energy transition

Climate change increasingly impacts our environment and society, in which the energy system will change drastically. As a regional network operator, Stedin Group plays a crucial role in this changing energy system.

The Board of Management has summarized the effects of the energy transition on Stedin Group and its plans concerning the energy transition, including the associated impacts, challenges, uncertainties and opportunities in the Report of the Board of Management, which includes the Sustainability Statement.

The impact of the energy transition on the financial statements is explained in note 1.2. This is primarily reflected in the increase in the investment level in the electricity grid and its financing, as explained in notes 13, 21 and 24.

Furthermore, the energy transition impacts the assumptions used in estimating the useful life and depreciation methods of Stedin Group's assets, including its gas network, as explained in note 2.5.

As part of our audit of the financial statements, we evaluated how Stedin Group considers the effects of the energy transition in its estimates and significant assumptions. We also refer to our key audit matters. Additionally, we have read the annual report and considered whether there is any material inconsistency with the financial statements. Finally, we have performed assurance activities on Stedin Group's Sustainability Statement, for which we refer to our separate assurance report."

Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
